

Notice #2 - May 5, 2009 Influenza A(H1N1)
(formerly known as Swine Flu)

We continue to carefully monitor information from the World Health Organization, the Public Health Agency of Canada, the Ministry of Health and Long Term Care and our local Public Health Department. There have been no instructions from any of the listed organizations to change the way we do business. You will continue to receive service as usual. If one of your attendants is ill with flu like symptoms of fever, cough, muscle aches, sore throat and a runny nose, ask them to use a mask and notify their supervisor immediately. If you have any of the above symptoms, please notify your supervisor as soon as possible. Please continue to check our website for updates www.ilcwr.org
