

Notice #2 - May 5, 2009 Influenza A(H1N1)
(formerly known as Swine Flu)

We continue to carefully monitor information from the World Health Organization, the Public Health Agency of Canada, the Ministry of Health and Long Term Care and our local Public Health Department. There have been no instructions from any of the listed organizations to change the way we do business. Please continue to provide service to consumers as usual. If one of your consumers is ill with flu like symptoms of fever, cough, muscle aches, sore throat and a runny nose use a mask and notify your supervisor immediately. If you have any of the above symptoms don't come to work and follow the appropriate call in procedure. Please continue to check our website for updates www.ilcwr.org
